

# BV3011C

Indoor Fume and Odour Air Purifier

## Indoor Fume and Gas Filtration unit

When you let our air purifiers take care of harmful fumes and odours the improved air quality will provide a much healthier work environment.

2 large Activated Carbon filters ensure your Lab, Salon, Workplace is free of potentially harmful gases and fumes given off when using Organic Chemicals and compounds. Whether in a Laboratory, Operating Theatre, School, University, Nail salon or chemical mixing area, the BV3011C effectively cleans the air before returning it into the workplace. This helps you make sure operatives and workforce are protected. It also helps reduce heat loss as the units re-circulate the air back into the room....

By choosing the BV3011C air purifier, you get a filter package that will deliver consistent performance and a high level of efficiency throughout its lifetime. It will also be more sustainable and greener than most other solutions.

Demonstrating adequate control of the risks to the health of employees, students and the general public, from dusts, powders, mists, fumes and vapours is the fundamental requirement of the Control of Substances Hazardous to Health (COSHH) regulations 2002 and 2004.
